## Front-end Developer

## PROFESSIONAL PROFILE

Creative, passionate, and certified front-end developer with more than one and half year of professional experience as a front-end developer. Having worked with fintech startup companies I have a good understanding of the life cycle of a project. In my short working life, I have led two such projects through which my current company is providing satisfactory service to its thousands of customers. One of my strengths is finding unique and simple solutions to problems that arise while ensuring a good customer experience. I consider myself a team player who can independently find different ways to move forward.

## TECHNICAL SKILLS

UX/UI, HTML, CSS, SCSS, JavaScript, React, RestAPI, ReactQuery, React Hook Form, JEST, Material UI, MySQL, .Net, Firebase, Git, TDD and Agile Methodology.

## WORK EXPERIENCE

**FRONT-END DEVELOPER**
Nordfin Capital Group AB, STOCKHOLM | November 2021 – Current

- Developed a fintech website (*https://mypage.nordfincapital.com/*) from scratch using React for the customer of Nordfin Capital and by doing so I gained a lot of practical experience and knowledge in various areas such as UX/UI, Material UI, ReactQuery, React Hook form, APIs, Implementation of various payment method (Swish), BankId login technique, and last but not least Azure deployment services.
- Currently developing two projects simultaneously for internal users of Nordfin.

**FRONT-END DEVELOPER INTERN**
ViaEcole, STOCKHOLM | MARCH 2021 – JUNE 2021

- Created a web-based conferencing app(screen sharing) for internal users of ViaEcole using JS,WebRTC, and Firebase.

**FRONT-END DEVELOPER INTERN**
SEMSOMI, STOCKHOLM | FEBRUARY 2020 – MAY 2020

- Helped to develop a fully automated AI based news app (Monok) for android system using react native.

**NETWORK ENGINEER**
HUAWEI TECHNOLOGIES, BANGLADESH | 2008 – 2009

- Responsible for monitoring and analyzing alarms generated by Mobile Switching Center and Base Station.
- Analyzing monthly KPI for mobile network and creating performance diagram of the network was one of my responsibilities which helped me to develop my analytical and logical thinking.
